#### Report

# COVID-19 PAN-CANADIAN TRACKING STUDY

**WAVE 4** | July 22 to July 28, 2020

**Canadian Red Cross** 

**DATE** 2020-07-31 **PROJECT NUMBER** 13088-012

#### **CONTEXT AND OBJECTIVES**

#### **CONTEXT**

This tracking study is conducted to support Canadian Red Cross operations and strategies related to COVID-19. The study focuses on public perceptions about social and psychological impacts of COVID-19, with an emphasis on seniors.

This report presents survey results for WAVE 4 (W4).

#### **HOW**

A Web survey was conducted with a representative sample of 2,201 Canadians. Among them, 1,960 (87%) are recontacts who also answered the WAVE 3 survey and 1,510 (66%) are recontacts followed since WAVE 1. All respondents were randomly selected from Leger's Web panel.

**2,201 Canadians**, 18 years of age and older, French- and English- speaking:

#### **WHO**

- 18 to 64 years of age: 1,010 respondents;
- Seniors (65 years of age or over): 1,191 respondents including 204 vulnerable seniors (VS) who live alone and rated their health fair or poor before COVID-19.

#### **LANGUAGE**

**French or English,** based on the respondent's preference.

#### **WHEN**

Data collection for this study took place **from July 22 to July 28, 2020.** The Web-based interviews lasted an average of **6 minutes**.

#### WEIGHTING

Survey results were weighted according to gender, age, region, education, mother tongue, presence of children in the household and the fact of being a vulnerable senior (65+, living alone, etc.) in order to ensure sample representativeness, according to the latest Statistics Canada census.

#### **ROUNDING**

REPORT

HOW TO READ THIS

Numbers in this report have been rounded out, but the numbers before rounding were used to calculate the sums presented. Therefore, these sums might not correspond to the manual addition of the rounded numbers.

#### SIGNIFICANT DIFFERENCES

Results presenting significant and relevant differences are indicated in a text box next to overall results.

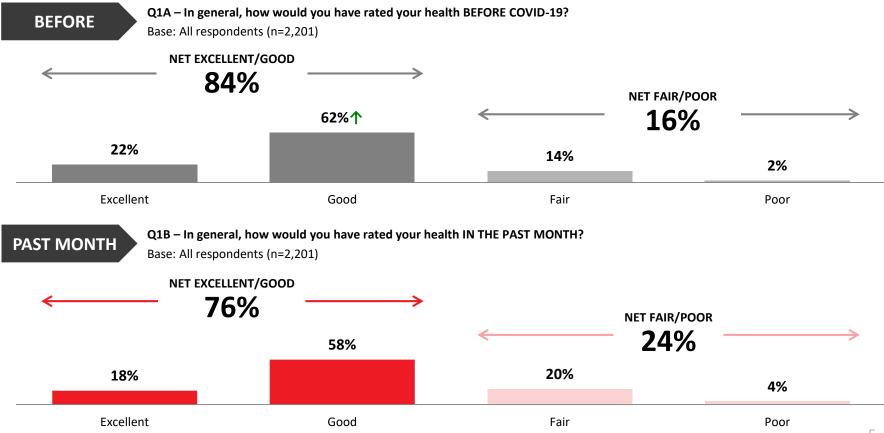

Percentages in **bold green** indicate a statistically **higher proportion** than other respondents. Percentages in **bold red** indicate a statistically **lower proportion** than other respondents.

Arrows pointing upward in bold green (↑) indicate a statistically significant increase since W3. Arrows pointing downward in bold red (↓) indicate a statistically significant drop since W3.
